2023-2024 Class Schedule Registration ... 13

Training Coordinator Ryan Hollinrake

In this Training schedule newsletter, you will find a variety of training opportunities. Our goal is to make as many training opportunities available to you as possible. With rapid technological changes in the workplace today, it is more critical than ever to stay up-to-date by utilizing the training available to you. We must adopt an attitude of lifelong learning if we are going to compete successfully in the industry today. I urge both new members and long-standing members to train and upgrade their skills in order to expand your opportunities. With the growing demand for highly skilled Operating Engineers, training will not only help you achieve a better quality of life, but help to pave a future towards steady employment as well. As a member of IOUE Local 234, one of the many valuable resources available to you is the certification and equipment training. Take a look through this training schedule, and if there is a class you have been meaning to take or a piece of equipment that you have always wanted to check out, now is the time to do it so you are ready for when the business agents call. The International Training Fund and Pipeline Training Fund also offers a wide variety of courses some of which are not available locally for members to upgrade their skills. Their training schedule is available on www.ioue.org

CCO continues to adjust their testing procedures. The CCO group written test via computers will be limited to 14 members each time. Due to this change, CCO group testing at the training site will be offered more frequently than in the past to accommodate members. Along with group testing, CCO did expand testing options for members to test individually through out the year at the training site. Please contact the training site to schedule a testing option that works well for you.

The Training Fund was able to upgrade excavators this season with the purchase of a new CAT 323 excavator with Trimble Earthworks GPS. It has provided several new training opportunities for member so far.

The Apprenticeship program continues to have a large number of apprentices registered in the program. Membership involvement is a key part of their success. Every member needs to remember to help, teach, train, and develop other members in the field.

I look forward to seeing everyone this winter training season.

CONGRATULATIONS TO THE
2023
APPRENTICESHIP GRADUATES!

OSHA CLASSES

OSHA SAFETY TRAINING FOCUS 4-HOUR REFRESHER

OSHA Refresher is a four-hour class covering the Focus Four Hazards: Falls, Electrical, Struck-By, and Caught-Between. These are the top four killers, and loss of work hazards on the job.

OSHA 4-HOUR REFRESHER: Class Dates

December 14th — 8:00 am

December 28th — 8:00 am

February 1st — 8:00 am

February 12th — 8:00 am

February 22nd — 8:00 am

OSHA 10-HOUR

OSHA 10 is a two-day class as per OSHA we are only allowed to instruct 7.5 hours a day. This card is required on most jobs. Most of the course is classroom however there is hands on as well. Topics include Intro to OSHA, Focus Four Hazards, PPE, Health Hazards, Cranes, Excavations, Material Handling, Tools and others. Provided we have enough interest.

OSHA 10-HOUR: Class Dates

December 19th & 20th — 8:00 am

January 9th & 10th — 8:00 am

January 22nd & 23rd — 8:00 am

March 18th & 19th — 8:00 am

OSHA 10-HOUR GENERAL INDUSTRY

March 21st & 22nd — 8:00 am

OSHA 30-HOUR

OSHA 30 is a four-day course. This card is starting to be required, Plant Work, Army Corp of Engineers, etc... Everything covered in OSHA 10 but more in depth, plus several more sub-parts of Health Hazards & Health Safety is the main focus.

OSHA 30-HOUR: Class Dates

January 2nd thru 5th — 8:00 am

February 26th thru 29th — 8:00 am

CLASSES

FIRST-AID / CPR CLASSES

Instruction in basic First-Aid/CPR needs to be renewed every **TWO** years. Please note the times for these classes, classes start at **12:30 pm**.

FIRST-AID / CPR: Class Dates

December 14th — 12:30 pm

December 28th — 12:30 pm

January 23rd — 12:30 pm

February 12th — 12:30 pm

December 20th — 12:30 pm

January 10th — 12:30 pm

February 1st — 12:30 pm

February 22nd — 12:30 pm

March 19th — 12:30 pm

FORKLIFT CLASS

Forklift/Tele-Handler has been a OSHA requirement for several years now. OSHA 29 CFR 1910.178 requires an operator to be evaluated, and trained every three years also as per standard, you are to receive site specific training by the employer. **There is a written and a practical test required due to class size members may have to schedule a time to practice and/or take the practical test.**

FORKLIFT: Class Dates

December 15th — 8:00 am

December 22nd — 8:00 am

December 29th — 8:00 am

January 12th — 8:00 am

January 12th — 8:00 am (Sioux City)

January 19th — 8:00 am (Cedar Rapids)

January 31st — 8:00 am

February 16th — 8:00 am

March 8th — 8:00 am

March 20th — 8:00 am

TRAFFIC CONTROL / FLAGGING CLASS

Flag Training meets the requirements established by the Manual on Uniform Traffic Control Devices and OSHA. Topics to be covered include traffic control devices, the flagger's role in work zone safety, Iowa Laws, and flagging procedures. This card is good for three years.

TRAFFIC CONTROL / FLAGGING: Class Dates

February 2nd — 8:00 am

You can now register
for classes online at:
LOCAL234.COM

**MEMBER'S
SECTION**

CRANE CLASSES

RIGGING & SIGNAL PERSON CLASS

Rigging will be a 2 day class. We will cover wire rope, chain, nylon and synthetic slings. Rigging hardware, sling configuration and communication will also be included. This will be part classroom, part hands-on. Upon successful completion you will receive a basic Qualified Rigger card and/or a Qualified Signal Person card. There is a ten person minimum to have this class. **Bring PPE to class.**

Signal Person will be a 1 day class.

RIGGING: Class Dates

January 24th & 25th — 8:00 am
(2-day class)

February 14th & 15th — 8:00 am
(2-day class)

SIGNAL PERSON: Class Dates

December 21st — 8:00 am

January 26th — 8:00 am

March 1st — 8:00 am

INTRO TO CRANE SAFETY

This course will introduce the member to craning with topics, terms and definitions, set-up, basic rigging and oiling. This will be a 40 Hour course.

INTRO TO CRANE SAFETY: Class Dates

March 4th thru 8th — 8:00 am

CRANE ASSEMBLY / DISASSEMBLY

This course will introduce the members to basic operation and safety of crane assembly and disassembly. This 3 day class is both hands-on and classroom training.

CRANE ASSEMBLY / DISASSEMBLY: Class Dates

March 11th thru 13th — 8:00 am

CCO WRITTEN TEST - EOT TEST (Event Online Testing)

These test are now being held at the **Training Center** and are **limited to 14 people each test**. You must sign up through www.nccco.org by clicking on (mycccolgin/registration) in the upper right hand corner of NCCCO website. If you don't already have a CCO login you will need to register to get one. Once you are on your dashboard you will need to apply for Written Testing – EOT/OPT. Make sure everything is correct and make sure you choose the EOT when registering for the exam. Once you get an email that states **Candidate Scheduling Authorization** that needs to be emailed to Lori at Lorilu234@gmail.com so she can get you in our EOT Tests. You will be notified by email as to what testing date you are scheduled for. If you have any questions, please call the training center.

CCO Written Test EOT Dates:

February 4th – 8:00 am

February 18th – 8:00 am

March 17th – 8:00 am

OPT EXAMS – (Online Proctor Testing)

OPT Exams – (Online Proctor Testing) are available to be taken at the training site on an individual basis throughout the year. You would need to sign up for an OPT exam through your NCCCO Dashboard and when you get ready to schedule, please contact the training site before you schedule your date and time to confirm that the office and computer at the training site is available for your OPT Test.

PRACTICAL EXAMS

Mobile Crane Practical Exams are offered by personal arrangements. Please call the training center to schedule your Practical Exam. It is **STRONGLY** recommended that prior to the practical exam, applicants attend the training center to familiarize themselves with the cranes they will be operating.

LEVEL 1 CRANE OPERATIONS

In this class students will be taught the requirements for crane inspection, the basics of crane set up including LMI's and LML's. This portion of the class has a hands-on approach. The largest portion of the class will be actual seat time instruction in the "How To" operate a crane safely and build on basic skills necessary to lift loads. **This class will be held in Crosby, TX. Limited space will be available. Class enrollment deadline is December 13, 2023. Contact the training center to enroll in this class.**

Level 1 Crane Operations Class Dates:

January 15th thru 19th – 8:00 am

January 29th thru February 2nd – 8:00 am

CRANE OPERATIONS/STANDARDS AND LOAD CHART REVIEW FOR MOBILE CRANES

This course will include standards from OSHA 1926.1400 and ASME B30.5, load chart and range diagram review. This class will be held at the training center.

Crane Operations/Standards and Load Chart Review Class Dates:

February 3rd— 8:00 am

February 17th – 8:00 am

March 16th – 8:00 am

LOAD-CHARTS AND REGULATIONS

In this 16-hour course the members will be instructed in the proper use of various Crane Manufactures Load Charts, and the OSHA/ASME hoisting and mobile crane regulations.

Load-Charts and Regulations Class Dates:

March 14th & 15th – 8:00 am

CLASSES

GPS CLASS

This class will focus on working with GPS, base stations, rovers and machine controls. You will be taught how to set up a base station, calibrate a site using the rover. **Students may bring their laptops to class for simulator downloads.**

GPS: Class Dates:

March 13th thru 15th—8:00 am

STAKE & GRADE

Members will be trained to read grade stakes and plans, use a hand level, transit, a laser and various related instruments and develop skills that include basic computation.

STAKE & GRADE Class Dates:

March 11th —8:00 am

ADVANCED STAKE & GRADE

Class Dates:

March 12th—8:00 am

TRENCHING & EXCAVATION SAFETY

Trenching & Excavation Safety is a eight-hour class designed for the member who has experience operating excavators, backhoes, and loaders. We cover soil mechanics, OSHA regulations, trench safety and trench rescue. Members upon completion will receive a Trenching & Excavation card allowing the member to be a designated Competent Person by their employer. There will be both classroom and hands-on training in this course.

TRENCHING & EXCAVATION SAFETY Class Dates:

December 27th—8:00 am (1day Class)

February 14th—8:00 am (1 day Class)

February 15th—8:00 am (1 day Class)

CLASSES

INTRO TO SCRAPERS

The members will be introduced to maintenance, safety, and cut/fill operations for Scrapers. This class is both hands-on and classroom training.

INTRO TO SCRAPERS

Class Dates:

March 25th thru 29th—8:00 am

INTRO TO 12M MOTOR GRADER

This course will introduce members to basic operation, safety and pre-operational inspections. This course will be both classroom and hands-on training

INTRO TO 12M MOTOR GRADER

Class Dates:

April 15th thru 19th—8:00 am

INTRO TO DOZERS

This course will introduce the member to safe basic operating techniques. This will include pre-operational checks, inspections, safety and basic dozer techniques. This 40 hour course will be both hands-on and classroom training.

INTRO TO DOZERS

Class Dates:

April 1st thru 5th—8:00 am

ADVANCED DOZER

This course is for the member that has worked on a dozer before and would like more advanced training. This will be a 40 hour course with both hands-on and classroom training.

ADVANCED DOZER

Class Dates:

April 8th thru 12th—8:00 am

INTRO TO RUBBER TIRE BACKHOE/LOADER

This course will introduce members to basic operation, safety and pre-operational inspections. This course will be both classroom and hands-on training.

INTRO TO RUBBER TIRE BACKHOE/LOADER

Class Dates:
April 22nd thru 26th —8:00 am

CLASSES

HAZWOPER

HAZWOPER 40-Hour. Provides the basic information needed to protect HAZWOPER Site Workers from Health, Physical and Biological hazards. This course meets the requirements of OSHA 29 CFR 1910.120. It is a combination of classroom and hands-on, and requires you have a 8-hour refresher every year. **We need a minimum of ten people to have this class.**

HAZWOPER 40-HOUR: Class Dates

January 15th thru 19th—8:00 am

February 5th thru 9th—8:00 am

HAZWOPER 8-HOUR REFRESHER: Class Dates

February 13th—8:00 am

February 23rd—8:00 am

MSHA MINER TRAINING

MSHA New Miner training. The Mine and Health Administration states that all miners be trained before starting work at mine (quarry) site. This is a 3-day class. An 8-hour refresher class must be taken every year. Site specific training is also required from the employer.

MSHA CERTIFICATION: Class Dates

March 4th thru 6th—8:00 am

MSHA REFRESHER: Class Dates

December 18th—8:00 am

January 11th—8:00 am

January 30th—8:00 am

March 7th—8:00 am

CLASSES

FALL PROTECTION

This course provides an overview of technology for fall protection and current OSHA requirements. Topics covered will include the principals of fall, the components and limitations of fall arrest equipment and OSHA policies regarding fall protection.

FALL PROTECTION: Class Dates

February 21st—8:00 am

International Training Center in Texas
Log on to the International website to
see what classes are available in Texas.
www.iuoe.org

SEWER & WATER CLASS

The class will cover excavating with trench boxes, laying sewer pipe as well as safety materials and equipment used in sewer and water work. Members who register for this class **must** be familiar with a combination backhoe, excavator and loader. There will be hands-on as well as classroom training that involves some plan reading.

SEWER & WATER: Class Dates

April 22nd thru 26th—8:00 am

CONFINED SPACE AWARENESS

Confined Space Awareness OSHA 29 CFR 1910.146 Confined Space Entry requires documented training for confined space workers. Anyone serving as entrant, attendant, supervisor or rescuer must be trained to a level of proficiency equal to the duties they perform. This course covers the regulatory requirements, principles of air monitoring, permit procedures, ventilation, written program and other procedures involved with rescue. This is a 4 hour course

CONFINED SPACE AWARENESS: Class Dates

February 20th—8:00 am

CONFINED SPACE RESCUE

Confined Space Awareness is a prerequisite for this class. This class will take the student through the protocol of a Confined Space Rescue. You will be introduced to the tools and technology. There will be hands-on and classroom training for this 4 hour course.

CONFINED SPACE RESCUE: Class Dates

February 20th—12:30 pm

REGISTER FOR CLASSES ONLINE AT LOCAL234.COM

CLASSES

UNION MEMBER EDUCATION / LABOR HISTORY

Union Member Education is a half day class covering labor history, decisions, and developments which have shaped Americans modern working class. This course covers the struggles of courageous working men and women to win dignity, security, education and to provide food, shelter and personal fulfillment.

UNION MEMBER EDUCATION / LABOR HISTORY: Class Dates

January 8th—12:30 pm

January 29th—12:30 pm

HERE IS A MAP TO THE TRAINING SITE

FINANCIAL PLANNING

This class will cover money management tools and tips. Become a better saver. Learn how to control your finances. Topics covered will be loans, better spending habits, your credit picture and what it means and how to deal with debt. This class is being presented by a non-profit financial capability network, Not a bank. More services are available if interested.

Dave Stitz, Trustee

The Iowa Operating Engineers Joint Apprenticeship and Training Fund will not discriminate against apprenticeship applicants or apprentices based on race, color, religion, national origin, sex (including pregnancy and gender Identify), sexual orientation, genetic information, or because they are an individual with a disability or a person 40 years old or older. The Iowa Operating Engineers Joint Apprenticeship and Training Fund will take affirmative action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required under Title 29 of the Code of Federal Regulations (CFR), part 30.
